

Aluminum Tie Rod Order Form

PO:

Overall Length:

Outside Diameter Side A and B: (If straight)

Outside Diameter Side A: Side B: (If tapered)

Brand: ☐ FK

☐ Aurora

☐ Other

Overall Length

The diagram shows a horizontal tie rod with a tapered profile. On the left, a vertical bracket labeled "O.D. Side A" indicates the diameter at that end. On the right, a vertical bracket labeled "O.D. Side B" indicates the diameter at that end. A horizontal double-headed arrow above the rod is labeled "Overall Length". Below the left end, an arrow points to a section with labels: "Thread" followed by a text box, a checkbox for "Left Hand", a checkbox for "Right Hand", and "Initial" followed by a text box. A similar set of labels and arrows is located below the right end of the rod.

Notes:

1. Overall length, outside diameter, thread size, thread pitch, thread direction and rod end brand must be filled out and initialled by customer.

2. Revisions to finished parts will be charged at shop rate with a 1 hour minimum charge.
